

## Turboflo™ DRA Applications

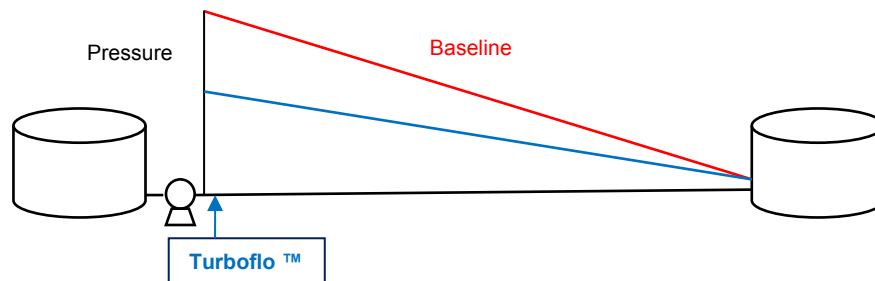

### 1. Pipeline Flow Increase

- Increase Flow Rate of 1 or many Pipeline Segments
- Increase Tanker Loading Rate
- Increase FSO Loading Rate

### 2. Pipeline Pressure Reduction

- Reduce Operating Pressure due to Corrosion
- Reduce Operation Pressure due to Maintenance
- De-bottleneck Connected Platform Infrastructure

### 3. Energy Savings

- Bypass Intermediate Pump Station
- Shut Down Incremental Pumps
- Utilize Less Pumping Power to Reduce Emissions
